

Accommodation and Funded Mechanism for Persons with Disability Policy
Objective of the policy
<ul style="list-style-type: none"> ➤ To ensure the availability of accommodation for disabled persons ➤ To implement a strategy for initiating a funding mechanism for disabled persons
Introduction to the policy
It is estimated that only 5% of all students with a disability complete primary school. Even when students with disabilities attend school or college, a curriculum that has not been adapted to their needs may mean they do not have the same access to education as their classmates do. National disability inclusion policies should include language related to reasonable accommodations and necessary funding mechanisms for them also.
Guidelines from Public Statutory and Non-Statutory Bodies/ Committees.
<p>Adopted in 2006, the United Nations (UN) Convention on the Rights of Persons with Disabilities (CRPD) provides the most comprehensive international legal framework for supporting the educational rights of children with disabilities. The CRPD states that countries that have ratified the CRPD must ensure an inclusive education system at all levels and that children with disabilities have the right to free primary and secondary education and cannot be discriminated against based on their disability.</p> <p>Other requirements related to the education of individuals with disabilities include the following,</p> <ul style="list-style-type: none"> • Students with disabilities should receive reasonable accommodations near the classroom. • Institutions should provide necessary funding mechanisms to look after their needs and development • Colleges should address the academic, social, and life skills needs of each student. • If needed, alternative learning methods should be used, such as braille instruction or alternative communication devices.
Importance and Implementation at KPRIET
There are seven on-campus hostels, accommodating up to 1200 students in total. Every year, accommodation preference is given to first-year students, students with physical or mental disability, international students, publicly funded students, students from the outlying islands, elite athlete students, and disadvantaged indigenous students. The remaining bed spaces are then allocated to other students through drawing lots.
Responsible Statutory and Non-Statutory Bodies/ Committees at KPRIET
The non-statutory committees, namely, Equal Opportunity Cell (EOC) and Hostel Council, are functioning at KPRIET.
Meeting Frequency
Once every three months.
